10+ years of experience | Arabic + English | We publish the apps from our accounts | Yearly subscription

What you get — all under your name and logo

We prepare and publish the whole package. You do not need to open any account or do anything technical.

Mobile app

iPhone and Android, published on the App Store and Google Play under your company name and logo, from our own accounts.

Laptop program

A Windows EXE file for HR and management.

Your own website

Fully branded, and prepared to appear in Google search.

Full control panel

Employees, payroll, leave and attendance from one place.

How we start

Three simple steps.

1

Send your logo and name

Your company logo, name and colours.

2

We build and publish

We prepare the app, program and website with your branding and publish them from our accounts.

3

You start working

Your team downloads the app, and we stay with you for support and updates.

Subscription

A yearly subscription that includes:

- The app, program and website with your name and logo
- Publishing on both stores from our accounts
- Updates and ongoing development
- Technical support

Ready to prepare your own version

Send us your company logo and we will prepare a demo with your branding.
